All three girls are still in the hospital today, however, Mrs. Barthel said that it was believed that their injuries were not serious and that no broken bones have been detected.

Goldstein was also taken to the hospital after first aid treatment by the squad. He suffered a cut on the leg and head injuries. He is still in the hospital today but it is thought that his injuries are not serious since he is reported to have been up and around the hospital corridors.

A meeting of all prospective members of the band for the coming year will be held Friday evening, July 11, at the high school and Birkhead urges that all high school students attend and help choose the new uniforms.

In the past the band has been handicapped in contests and other appearances by the lack of proper uniforms and it is certain the new uniforms will not only provide a much improved appearance of the band, but will promote greater interest in the band on the part of high school students.

Antioch Rescue Squad Has Busy Week - Six Calls

Automobile and Lake Accidents Keep Members On Move

Members of the Antioch Rescue squad treated a good number of injured persons during the week, with heart attack cases, automobile accidents, a near drowning and an explosion, but did not receive any calls on Friday - the 4th of July, when members of the squad were on duty for immediate travel on calls.

Three calls were received on Saturday. The first coming in at 11:15 when Frank Bedrava, Chicago, struck a registered Hereford cow, property of Ravenscroft farms, on route 45 near route 173, killing the cow and fracturing Bedrava's nose. Cyril Karcek, a passenger in the Bedrava car, sustained a fractured leg. The second call was put in when Emil Anderson of Petite Lake, a retired Chicago Police Lieutenant, suffered a slight attack while in Antioch and the squad summoned to administer oxygen. A third call Saturday took the squadmen to Chain O' Lakes golf course to try to revive Emil M. Gramse, who had collapsed as a result of a heart attack.

Near Drowning at Sand Lake
What could have been a disastrous lake accident was avoided by the quick action on the part of an unknown fisherman who rescued four persons who had capsized in a row boat on Surfday. The identity of the rescuer is unknown as he left the scene when the squad appeared. Persons who were in the boat were Ann, Hugo, and Teresa Innaicenti, and Lorraine Zallaki, all of Chicago. Holbek said that the fisherman who had brought them to shore had laid them neatly in a row on the beach and then left the scene. Oxygen and artificial respiration soon brought them to consciousness and it is believed that they will suffer no ill effects.

The squad was summoned to the Hastings Lake camp Tuesday morning when a water system tank exploded, injuring Jas. M. Lacey, camp director, and killing Raymond Loren Bauman, Jr., caretaker, instantly. The system, which was a large one, had built up enough pressure to explode the tank and the unfortunate caretaker was seeking the cause of the excessive pressure in the water system at the time of the explosion. He was beyond aid when the squad arrived.

Fire Department Selects Federal Chassis for Truck

The Antioch Fire department truck committee met Sunday morning in a special meeting to open bids on the chassis for the new fire truck to be purchased here. The committee selected the Federal chassis as the one best suited for the need and also from a financial standpoint as it was several hundred dollars cheaper than comparative makes.

The selection of the Federal chassis was approved by the entire membership of the department at the regular meeting Tuesday evening and the order will be placed at once after the approval of the village board is obtained.

Woman's Club Will Solicit Funds To Entertain Downey

Representatives of the Antioch Woman's club will be on the grounds at the American Legion Carnival this week to ask gifts of money to help swell the club's Downey Hospital Entertainment Fund.

The club has taken as part of its work the task of entertaining a group of disabled veterans at the hospital once each month, and since each trip entails considerable expense for candy, cigarettes and other small gifts for the men, some means of raising the money is needed. The club has entertained the veterans during the past five months and in order to continue the work is taking this means of providing funds.

Marine Grove, -Lake Region's Newest, to Be Opened Saturday

Aptly described as a bit of Hollywood transplanted is the new Marine Grove resort on the north shore of Petite Lake, which will be formally opened this Saturday, Sunday and Monday.

The entire resort comprises fifteen new, modern cottages, a main lodge, and a "subterranean cocktail lounge and dining room". This building is set flush into the bluff at the shore of the lake and is topped with a large sun deck, equipped with colorful chairs and tables and large beach umbrellas. The exterior of the building presents a very beautiful and striking appearance, being paneled in cypress, applied on diagonal lines both on the walls and ceilings.

More than 2000 cubic yards of washed sand have gone into the making of a beach on the shore of Lake Petite and this is certain to make a hit with vacationists.

The resort is owned by Mr. and Mrs. A. V. Ross who have for many years made their summer home here. Mr. Ross is a manufacturer of oil burners with plants in Chicago. All wants of the vacationists will be supplied including speed boat rides, rowboats for fishing, meals and dinners, in fact everything that could possibly be wanted in a resort will be found.

Scout Group To See Merit Badge Demonstration

Boy scout troops of Antioch will witness a merit badge demonstration in connection with work with dogs next Wednesday evening when George Dahl, scout leader of Wauconda will bring his trained collie dogs to Antioch. Dahl will have some of the best trained collies to be found and is a recognized authority on dogs as well as being a scout worker for many years.

In addition to the demonstration, Dahl will bring his outstanding scout softball team here for a game with the local scouts. The game will start at 7 p. m. on the high school diamond and will be free to the public.

Scout Master Harold E. Cardiff urges that everyone interested in scouting be present at the game and demonstration and promises that the program will be a real treat for everybody.

Miss Jean Pagels Wins Scholarship

Miss Jean Pagels, daughter of Mr. and Mrs. Alfred Pagels of Petite Lake was given a four-year scholarship for excellence in her studies at Antioch township high school.

The scholarship, which is effective in any of Illinois' five normal schools, awards Jean free tuition for four years. She has chosen to attend Illinois State Normal school at Normal, Illinois.

High School Board Buys Two Busses

The high school board members voted Wednesday evening at a special meeting to place order for two new busses, one Chevrolet and one Ford. Both busses are to be of 46 passenger capacity and will be the most modern and safe that can be obtained.

Walter Hills, president of the board, said today that the cost of transporting students to and from school each day will be much lower through operating the school's own busses that if the hauling were let on contract.

Some deliberation was given to the possibility of letting the contract, but the lowest bid on a mileage basis was 40c per mile on each of three busses, with a minimum guarantee of \$16 per day on each bus. This would cost about \$8640.00 for an average school year. On the other hand, two busses can be purchased for about \$8400, and it is figured that about two years of operation will pay for the busses in money saved.

Tentative plans are to remodel the present garage to some small extent and not erect a building until the system is under operation and board members can see how it works out.

Mae B. Alshuler Shows Paintings at Marianne's

Mae B. Alshuler, famous landscape painter, who prefers to get her inspiration from the simple things is exhibiting a group of her paintings at Marianne's Hunt and Treasure, 445 Lake St., Antioch, Ill. Mrs. Alshuler, whose studio is in Waukegan, takes her material from every section of the country. Her favorite subjects are mountains and lakes.

However, if you have visited her exhibits given annually at Mandel's Women's Club Bureau or at the Seneca Hotel in Chicago, you would find canvases painted at Lake Louise, in Colorado, California and many farm scenes made in Illinois.

Equally important are the water colors and oils exhibited by Fred Penny, of Libertyville. Clear, bright colors and great attention to detail mark Mr. Penny's water colors. Mr. Penny has won several prizes with his outstanding water colors.

Pictures from both these artists will be on display thruout the summer at 445 Lake St., Antioch, Ill.

Millburn Masons Schedule Monthly Card Party for 19th

The Millburn Masonic lodge, which has been accumulating funds for use in erecting a Masonic temple in Millburn, will hold a public card party on Saturday, July 19. The party will be one of a series which has been very well attended in the past few months. Reports from interested persons indicate that sufficient money to begin the building of the temple will be on hand within a short time.

Jack Fields Selected To Play On Softball Team at Beloit School

The summer sports program at Beloit College got underway today with the selection of a "Varsity" softball team to compete with other teams in the Beloit area.

Jack Fields, of Antioch, was one of the men named by Director of Athletics, Dolph Stanley, for the softball squad, which includes players from New York and Miami, Florida, who are also attending summer school at the college.

Legion Carnival to Open Tonight for Four Days

Shouts of barkers, the music of the merry-go-round, and other kindred noises will rend the air this evening at 7 p. m., when the annual Antioch American Legion post's carnival opens its gates. The midway will have a total of 48 different attractions, all of which will be manned by members of the Legion and Auxiliary with the exception of those in charge of the Antioch Fire department, the Antioch Woman's club and the Lions club.

Five rides, two of which are new will be a feature certain to appeal to the younger element, and some of the older persons, too. The kiddie car ride is getting its initiation here having been shipped direct here from the factory. The "Octopus" ride is also new having been set only twice before. Other rides which will vie with the newer ones are the old standby—the merry-go-round, the ferris wheel and the tilt-a-whirl.

Something new in the way of entertainment is promised by the side-show which features several animal acts, said by the promoters to be one of the finest of its kind in existence.

The carnival will last for four days Thursday, Friday, Saturday and Sunday, and proceeds will be used to carry on the regular work of the Legion and its Auxiliary.

Good weather is promised by the weather men and it seems certain that the show will have a large attendance. The grounds have been sprayed with D. D. T. to free it of all insects.

Recreation Group at Grade School to Picnic Friday

Friday at 10 a. m. will see the entire recreation group of the Antioch Grade school in readiness for a picnic lunch on the grounds. Children will be given lists of food which they are to furnish and parents are invited to attend the picnic.

Races and games of different sorts will be a part of the day's fun, the highlight being a hat show at 10 a. m. Prizes will go to the funniest, prettiest, smallest and most original hat.

Other activities planned for the children include, besides the regular morning and afternoon sessions at the school, swimming on Monday afternoons for the older children.

Handicraft so far has consisted of the making of drums from inner tubes and tins, and the making of bracelets, key chains, and belts of lanolace. Other handicraft projects will be instituted from time to time.

Village Warns Owners of Cars

All owners of automobiles who live within the village limits must purchase vehicle tags for their cars by July 20th or be liable to arrest, according to Village Trustee Frank D. Powles, member of the license committee.

Powles said that although the expiration date on the old tags had been April 30th, no action by the village officials had been taken in the hope that most motorists would purchase the tags voluntarily. Now, however, each car which does not carry the new license tag after July 20th will be ticketed.

Powles also mentioned that dog license tags were long overdue and that the same deadline would apply to dog owners who have not purchased licenses for the coming current year.

Felter's Association Improves Subdivision Streets and Roads

All roads in Felter's subdivision, Lake Catherine, are being oiled and improved this week. The treatment consists of a primer coat of oil followed by a layer of asphalt seal coat after which a coating of washed small gravel will be applied.

All money for this work is supplied by the association, no assistance being given by the state or county, since the roads are private. Dues and funds raised at the annual picnic are used for this purpose.

Officers of the association have set a limit of 15 miles per hour for all cars and trucks operated within the subdivision and every effort to enforce this speed limit will be made. The presence of a large number of children in the subdivision has made this limit necessary, they say.

You Can't Eat Currency

As everyone knows, coal is one of the vital raw materials which keep the American production machine running. The coal strikes were directly responsible for drastically reduced output of a long list of commodities. Had they been prolonged, the eventual result would have been a collapse of steel production, electric power production, and transportation. The entire nation would have been subjected to an artificially-induced depression, accompanied by widespread unemployment.

High coal production is likewise important to the furtherance of this country's present foreign policy. One phase of that policy is financial and material aid to stricken nations, in an attempt to keep them out of the expanding Communist sphere of influence. And to many nations, imports of American coal are almost as vital as imports of American food. Congress may appropriate hundreds of millions of dollars for foreign aid—but that will achieve nothing unless those dollars can be converted into the commodities cold and hungry peoples must have. You can't eat currency nor can you use it for fuel.

Another coal strike would be a serious blow both to domestic production and to our prestige and power abroad at a time when the economic and social struggle between Communism and Democracy is approaching its most acute phase. This lays a heavy responsibility on the coal miners, on the operators, and on the government to effect a fair settlement of differences. Acceptance of the excessive wage demands last made by the United Mine Workers is not the proper solution—it would force the price of coal up and feed the fires of inflation. Some such pattern as that recently followed in labor-management negotiations in the steel and motor industries points to the right answer.

A Consumer Economy

The vital position of the retailer in the American economic system was well described recently by Gordon K. Creighton of the National Retail Dry Goods Association.

"Ours is a consumer economy," he said. "The retailer is the key man in this economy since 140,000,000 people are dependent upon him for the satisfaction of their wants and needs. His relationship to them is based on his capacity to supply them, immediately and continuously, with the myriad items which make up their

living requirements. . . .

"Free enterprise can only remain free while it remains effective and the keys to its effectiveness are in the hands of the merchant. The failure or even the serious faltering of the flow of our products to the people in peacetime would be the signal for still more determined attacks on the system. . . . Distribution itself is challenged by the false prophets of a new order. But it is the retailer who must accept this challenge, for the final guardian of our basic freedom of competition is the retailer."

Retailing is a perfect example of the free enterprise system. The great department stores and chain systems of today grew out of small, one-man operations of yesterday. The top men in American merchandising began, for the most part, as clerks, warehousemen, office employees, etc. They worked their way up through merit—just as small stores became large by giving the buying public the kind of goods and services it desired. American stores are always regarded with awe by people who come here from abroad. In no other country is so wide a selection of goods offered, nor is service so excellent. Unrestricted competition, under the free enterprise system, is responsible.

Excessive Benefits To Railroad Workers

E. H. O'Connor of the Insurance Economics Society, recently predicted that unless the Crosser bill is amended or repealed, farmers and all other shippers will eventually have to pay higher freight transportation charges than would otherwise be necessary.

The Crosser bill, which became effective last January 1, provides for increased retirement pensions for railroad workers—giving them more than twice the benefits received by other classes of workers under the Social Security system. It also provides cash disability payment for accidents and sickness which are not connected in any way with railroad employment. The increased cost to the railroads is estimated to be \$90,000,000 a year in pensions alone—and employees contribute an equal amount, for a total of \$180,000,000. This must inevitably be reflected in railroad rates.

Measures now proposed in Congress would sensibly amend the Crosser bill by eliminating non-occupational sickness and accident benefits, and by placing the railroads on an unemployment compensation tax basis comparable to that applying to other employers covered by the various state unemployment insurance acts. This, it is said, will save \$100,000,000 a year in operating costs.

Furthermore, it is manifestly unfair to give one group of workers benefits which are not available to others. That injustice could not be eliminated by extending the idea which underlies the Crosser bill to everyone—the result would be a tremendous financial burden on all industry, more inflation, and a long step toward further government regimentation of the individual. Reasonable amendment of the measure, as

FACT AND SCRIPTURE

Road signs and guides afford
the motorist and way farer a
knowledge of his way. If he would
disdain them—would he not have
to suffer his own folly?

Who is wise, and shall under-
stand these things? Prudent, and
he shall know them? for the ways
of the Lord are right, and the just
shall walk in them: but the trans-
gressors shall fall therein.
Hosea 14:9

Jesus saith unto him, I am the
way, the truth, and the life, no
man cometh unto the Father, but
by me.

Looks that stay looked at

- and Ability to match

GIVE yourself five seconds, and you know that here's car styling as up to the minute as the time of day.

Spend a few fast minutes to see why — and you spot both smartness right from tomorrow's designing boards and everything that should go with it.

Measure the reach and spread of that Buick bonnet, brim-filled with Fireball power.

Sweep your glance over the broad beam that spells room, the stretch that means easy-riding wheelbase, the size that tells of enough roadweight to end jounce and jitter.

Here, you tell yourself, is something to see. Here are looks to hold the eye for seasons to come — and lively, durable ability to match:

... Rich abundance of smooth, hushed Fireball horsepower from a

straight-eight kept young and lively by Accurite cylinder finish.

... Timeless coil springing on all four wheels, leveling all roads to boulevard smoothness.

... Riding poise from two steadying tons of roadweight — ease of handling from balance to draw a ballet dancer's envy. Soft, roomy cushions seating three apiece — finish that's the very last word in richness and taste.

Yes, it takes no time at all to show that you and Buick belong together, should go together steady — so what's holding you back?

TUCK AWAY PLENTY! Roomy luggage compartments hold plenty — and high-lifting lids make it easy to get at any piece.

After all, we can't do much about getting one to you till you make your wishes plain. You do that simply by placing your order — which will get equal consideration whether or not you have a car to trade.

10-lb. Pickerel in
Channel Lake Mon.

Mr. and Mrs. Emil Rackay, of Chicago, were lucky enough to make a real catch of fish Monday when they caught a 36 inch, 10-lb. pickerel—and when we say they, we mean "they," because Mrs. Rackay hooked the fish but turned the rod over to the head of the house when she sighted the fish.

Although several larger fish were reported during the winter when ice fishing was in season, it is believed that this is the largest of the species caught during the spring and summer.

The Rackays are staying at the Fred Warner cottages on Channel Lake on a vacation.

Mr. and Mrs. E. J. Lehmann, who have spent the winter months at their Chicago home are now at their Longwood farm home at Lake Villa for the summer.

Allen N. Johnson, of Antioch, California, Mrs. Phyllis Stott and children, of Denver, Colo., and Mrs. Walter Gibbling and children, Jerry and

Norman, of Gering, Nebr., are the guests of Mr. and Mrs. W. D. Woods and other relatives this week.

Mr. and Mrs. Karl Wiechmann, of Fox Lake, Allen N. Johnson, of California, and Mrs. Phyllis Stott and sons were dinner guests of Mr. and Mrs. W. D. Woods Wednesday.

Miss Francis Ziegler and Robert Ziegler, Miss Elizabeth Watson and Jack Mosher, of DeKalb, spent the Fourth and weekend with Mrs. Clara Willett.

Miss Beatrice Duffy, of Indianapolis, Ind., and a former resident of Antioch, who has been very ill is convalescing at the home of her brother at Cadiz, Ohio.

"Flower Arrangement for Everyone," was written by Dorothy Biddle and Dorothea Blom to instruct in the creation of beautiful cut flower displays. There are chapters on color rhythms, corsage making, flowers for the church, holiday arrangements, and table settings. This useful and timely book was presented to the library in memory of Mrs. Fred Cribb. Hartzell Spence has turned his talents to romantic biography. The grati-

fying result is "Vain Shadow," the story of Orellana, who served with Pizarro in the conquest of Peru, and discovered the Amazon River.

Boxing Show at Round
Lake Attracts Large
Crowd Saturday Eve.

The first of a series of amateur boxing shows which was held last Saturday evening at the Round Lake area was well attended, according to the promoters of the event, and a second show will be staged this coming Saturday evening. A selected group of the best fistic talent from Cleveland, Ohio, will meet batters from Chicago and vicinity in this week's card.

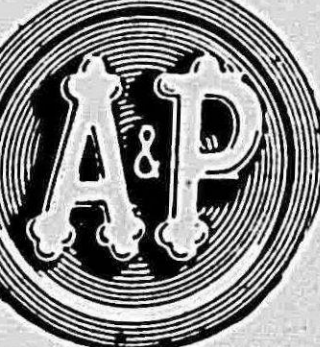

Gene Engel, promoter of the shows, has cut the program to seven bouts instead of the eight matches featured last week, to make the show a bit shorter.
